

Belong

A cocktail menu for everyone who's ever felt like an outsider until they found their crew.

A surreal landscape painting. A winding, golden-yellow path leads from the bottom right towards the center of the image. A small, white, stylized figure stands on the path. The landscape is a mix of vibrant green, blue, and pinkish-red, with dark, silhouetted trees and mountains in the background. The sky is a gradient of pink, orange, and yellow. The overall style is painterly and dreamlike.

COBBLER
& CREW

A white, stylized human figure stands centrally against a vibrant, abstract background of swirling colors including red, orange, yellow, green, and blue. The figure is composed of simple, rounded shapes, giving it a soft, almost ethereal appearance. It has a circular head, a triangular torso, and two long, slightly curved arms and legs. The figure's position is slightly off-center, with its right leg forward in a walking or standing pose.

Some people make a
place feel easier to be
in. The ones who shift
over. Pick up the tab.
Ask if you got home
okay.

This menu is a toast to
them. To the quiet
kindnesses.

The unexpected
warmth. The ones who
made you feel like you
belonged, even when
you didn't say a word.

Every cocktail here is a
tribute to someone like
that. Someone you
know. Or someone you
were lucky to meet. And
if you haven't found
them yet, we hope this
place feels like a start.

I've Got This Round

For the ones who
order without
asking what you
want, and somehow
get it right. These
drinks are bold,
classic, and
confident. The kind
that leads the night.

The background is a lush, green forest scene. Large, dark green trees with white daisies scattered throughout their foliage frame the top and sides. A bright, yellowish-green light emanates from behind the trees in the center, creating a glowing effect. In the lower center, a small, white, stylized human figure stands on a dark path, looking towards the light. The overall style is painterly and dreamlike.
